HECO-TOPIX® Decking screws

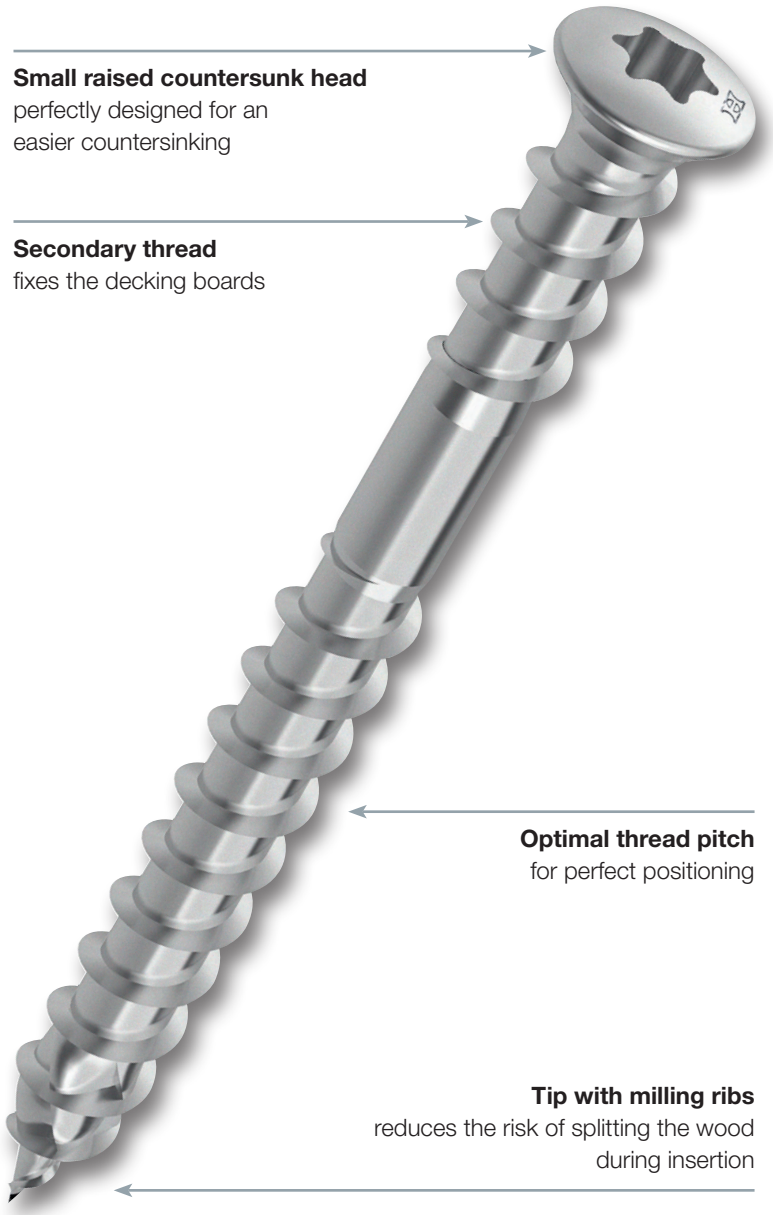
PRODUCT INFORMATION

Decking screw with secondary thread

- Reduced spreading effect due to the HECO-TOPIX® thread
- Can be used in hardwood (predrilling recommended)
- Special coating for lower driving torques and an easy dismantling
- T-Drive recess for an optimal load transfer during insertion
- Secondary thread fixes the decking boards and avoids creaking
- Stainless steel A2 and A4 for outdoor construction work

The professional decking screw with secondary thread

EDELSTAHL® Rost frei



Small raised countersunk head
perfectly designed for an easier countersinking

Secondary thread
fixes the decking boards

Optimal thread pitch
for perfect positioning

Tip with milling ribs
reduces the risk of splitting the wood during insertion
