- 3 drawers version GN 1/1 max. load Height 320 mm.
- 2 ventilated evaporator "treaty".
- 6 adjustable stainless steel feet.
- Inside and outside (top included) manufactured in stainless steel AISI 441 (also the back).
- Stamped interior bottom, rounded angles and corners (without roughness).
- Drawers with ergonomic handle, on telescopic slides, "snap-fit" closure by magnetic joint (easy replacement without tools), electrical resistance against the door, allowing the opening of the drawers.
- Tropicalized compressor group (ambient T° +43°C), built-in the (right) board, ventilated condensor.
- Frontal accessibility of the compressor group, easy inspection.
- Over-sized evaporator(s), ventilated or static (87% of relative humidity), placed between the doors.
- Refrigerated expansion R404a by capillary.
- Electronic regulator (under closed box, waterproof), control front screen with blue LED.
- Automatic defrosting of the evaporator, number of defrosting programmed by factory (modifiable at will).
- Condenser's automatic evaporation.
- Polyurethane insulation without CFC (50 mm).
- The equipment is manufactured following the (CE) standards in force

PLUS:

- Bases with drawers on telescopic slides.
- Evaporator treated against the salt and the food acids "coating".
- Electronic regulator (under closed box, waterproof).
