Service with a smile is not only our motto but also our company policy.

## International Sales of Pharmaceuticals and Healthcare Products

As a leader and pioneer of pharmaceutical wholesale in Turkey, and with an export coverage of 86 countries at the moment, Corena Pharmaceutical Wholesaler is currently working with more than 350 customers in these countries for the provision of more than 2250 pharmaceuticals actively. Together with our effective and competitive service, we are still enlarging our service area.

Committed to make international sales of pharmaceuticals and healthcare products at competitive prices, our ever-growing line of business includes but not limited to the following services;

- Meet the needs of public and private hospitals, healthcare providers on an international basis
- Supply of comparator drugs and sourcing products for clinical trials
- Providing the demands of national and international humanitarian agencies and NGOs
- Procurement of medical devices and equipment (including medical items and kits) for healthcare projects worldwide
- Named Patient Service (NPS)

We believe in continuous improvement, sustainable growth and loyalty and this lead us to the excellence business model at all times.

## Quality Assurance

We are well aware of the fact that the products we provide will have a direct role on the improvement of human health. We acknowledge the extra responsibility constituted by this fact. In this sense, we think that the establishment of a strong operation chain from the very beginning and the delicate advancement of the process are the keys.

 1600 m2 warehouse space
