Brand : DIAMOND

·**mm (BxDxH) :800x700xh850**

·**kW :11**

·**Volt : 230/3 50-60Hz**

·**kg :120**

·**M³ : 0,84**

- Basin dim. 720x450xh200 mm, surface 35 dm².
- Tumbling of the basin through manual lever.
- Manufactured in stainless steel 18/10 AISI 304, adjustable legs in stainless steel, watertight "IPX5".
- Water tap allowing the filling up of the basin, placed on top, opened through a valve placed in front of the machine.
- Cover submerged on top, hinges with spring system, allowing a gradual opening and closure of the cover.
- Basin in stainless steel with high heat conductivity
- Electric heating through armoured resistances in stainless steel, placed underneath the bottom (homogenous cooking on the entire cooking surface). Temperature regulation through thermostat with telltale LED, going from 90° to 290°C.
- Security system to stop the working of the machine while it is lifted.

Advantage :

Heating elements are placed under the bottom of the sink and follow the movement at the very same moment than the tumbling of the sink itself, 100% guaranteed security.

- Heating elements, infrared kind, uniform distribution of the heat on the whole area and very quick temperature upgrade.
