

MoDoS Pro

Modular Dosing System – MoDoS®

Components

- rigid aluminum framework, profile 40 x 40 mm
- micro annular gear pump mzs-6355 / mzs-7255
- duty / standby filters F-MI2-T for easy maintenance
- 3-way filling ball valve
- coriolis flow meter with integrated controller
- closed-loop flow control
- pressure relief valve/overflow
- check valve
- pressure transmitter with display
- Profibus interface
- 3-way ball valves for calibration of flow meter and pressure transmitter without disassembly
- 2-way drain ball valves
- 3-way filter flush ball valves
- swivel castors for easy transport
- fasteners for stacking of multiple MoDoS
- tubing OD 1/4"
- dimensions: 570 x 570 x 570 mm
