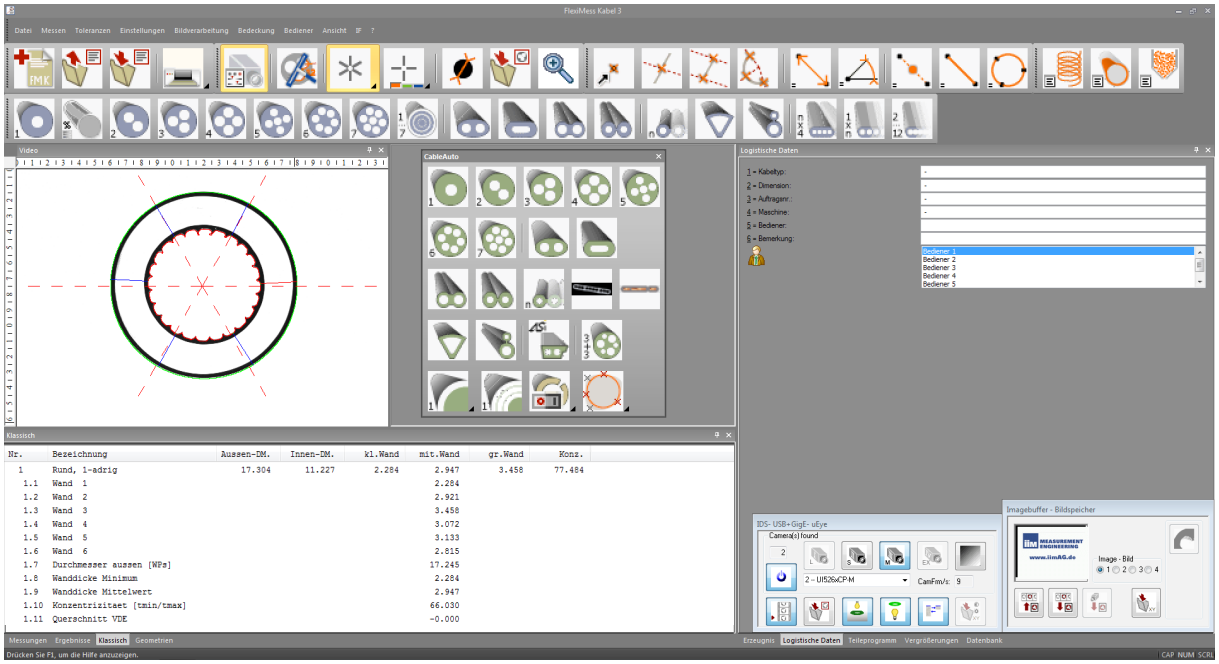
VisioCablePro®
EXPERT TOOLS FOR MEASURING CABLES

Software FMC 3 (FlexiMessCable 3)

Measurement-Software for safe results

Product No.: 403.0001.01



System requirements:

Cable measurement device	VCPX5 VCPLab VCPEx
Operating system	Windows XP Windows VISTA Windows 7 Windows 8.x
RAM space	2 GB
Hard disk space	5 GB

Software details:

- Safe analysis of test results
- Automatic measurement and analysis
- Measurement according to standard
  IEC EN 60811-201, -202, -203
  (for all standard cable shapes up to 3 layers)
- Easy operation

Important Standards for the measurement:

- IEC EN 50396
- IEC EN 60811 (-201, -202, -203)

Safe analysis - Safe quality

- Software is included in a complete package with a cable measurement device from the VisioCablePro® series
- Your quality guarantee for safe geometrical feature tests on cables and isolation conductors

Automatic measurement for a very simple measuring procedure

- Automatic measuring procedure and analysis of the achieved test results
- After the cable ist positioned and measured on the measuring table,
  FMC-3 analyses the sample completely at once
- Safe analysis of your test results
- Simultaneous archiving of the test results and comparison with saved test plans
- The complete package for your Quality Management
