

Pressure regulator DRV 225, High pressure design, G 2, 1.5-20 bar

Pressure regulator DRV 225, High pressure design, non-reversible, incl. pressure gauge, G 2, Control range 1.5 - 20 bar. Diaphragm pressure regulators with non-self-relieving design and non-pressure-reduced single-seated valve. Very precise adjustment and good response characteristic because there are only a few moving parts and hence minimal friction. Ideal for compressed air, nitrogen and other neutral, non-flammable gases, but only suitable for liquids with comparatively low flow rates.
