

# RAYBOW POWER

**MOTORIZED MOBILE X-RAY UNIT**

**With battery**

**PRIMAX**  
international

# EASY MOVE

- COMPACT AND LIGHT DESIGN
- EXCELLENT OPERABILITY AND MANOEUVRABILITY
- MOTOR ASSISTED DRIVE
- INNOVATIVE BATTERY ASSISTED HF GENERATOR
- IDEAL FOR ANY HOSPITAL AREA: SURGERY ROOM,ICU, EMERGENCY...

## IDEAL FOR ALL DIAGNOSTIC NEEDS

- Thanks to the telescopic arm, the 315° rotation of the column, the +/-180° rotation of the tube and the vertical and horizontal travel of the arm, the system can be easily positioned for all diagnostic needs

## TOP POWER FOR ALL TYPE OF EXAMS

- Wide range of X-Ray generators (20-32-40 and 50 kW)
- Battery assisted HF X-ray generator with constant power output
- Rechargeable from any power socket
- Ergonomic and user-friendly control panel with digital display for the generator parameters

## EASY POSITIONING AND MOBILITY

- Excellent mobility thanks to its large rear wheels for easy transportation
- Two Independent motors for each wheel (forward and backward movements)
- Anti-collision system to avoid obstacles
